

It is an old story now that nervous people tell of how the blood became thin and poor and then the nervous symptoms followed.

How many correctly guess that the thin blood was responsible for the nervous disorder?

The nerves get all their nourishment through the blood and as thin blood is deficient in nerve-building material, the nerves become starved. Pain and nervous breakdown result.

### Dr. Williams' Pink Pills

are a tonic for the blood that supply it with the necessary elements to nourish and tone up the nerves and, the cause being removed, nature does the rest and health is restored.

At all druggists, or direct from Dr. Williams Medicine Company, Schenectady, N. Y.  
50 cents per box; six boxes for \$2.50.

### Inherits \$10,000 and is Still Shoveling Coal

How many young fellows about the country would keep on shoveling coal after they had fallen heir to a nice little fortune? This is what John Q. Packard, nephew of the Salt Lake multimillionaire, is doing, and intends to keep on doing, notwithstanding the fact that his uncle willed him \$10,000. The younger Mr. Packard is a coal shoveler, working at the mines in Williamsport, Pa., and was informed of his good luck while at work.

When the will of the late John Q. Packard was opened, it provided that \$10,000 should go to his nephew, John Q. Packard, mines in Williamsport, Pa., and was in man, but the money has not affected him in the least. He says that he will invest the fortune for his only son.

The promise that Packard would be remembered in the will of his uncle was made in 1849 in New York City, when the boy was but 6 months old. Mr. Packard, then a rich man, told the boy's parents if they would name the boy after him he would remember him in his will. Packard is now working as a shoveler for \$1.50 per day. He says he will invest his money in real estate and keep on working.

### MR. ADAMS MUST BE GOOD

Wife Swears to Complaint Against Him and He Is Placed Under Bonds.

W. W. Adams, for the most part an industrious and well-meaning citizen, but who, when under the influence of liquor develops a sanguinary disposition, with his wife as the principal object of his dislike, is now under a promise, strengthened by \$200 bonds, to be good.

Adams appeared before Justice Smith yesterday on a complaint sworn to by his wife, who charged that on October 14 he had threatened to kill her. It developed that Adams is employed on a ranch outside the city, while his family resides in the city. Wednesday, while drinking, he visited his family and made his oft-repeated threat to kill his wife. Yesterday she preferred a complaint against him. Adams, after pleading guilty to the charge, expressed his penitence, and after his promise to the court that his future conduct would be good, he was released under \$200 bonds to keep the peace.

### IN THE POLICE COURT.

One of the most pitiable cases coming before the police court in many days was the appearance yesterday of Mary Williamson, a feeble, decrepit old woman of close to 70 years of age, who was charged with drunkenness. In a trembling, barely audible voice, she pleaded guilty to the charge, and with quick consideration for her miserable plight, promptly discharged her.

Charles Anderson, according to his story told to Judge Diehl yesterday, lost his union card Wednesday. The main trouble, however, was that Anderson evidently expected to find it in the bottom of a beer glass, for he had looked at many of them. This, too, was unfortunate for him, for he had only been discharged from the court Wednesday for being drunk. For his carelessness in losing the card and his endeavor to find it in queer places, Charles had to contribute \$3 to the city treasury.

The cases of J. H. Evers, charged with failure to support children, and C. A. Middleton, who is alleged to have attempted to defraud his landlord, which were set for trial before Justice Smith yesterday, were continued. Evers, it is understood, is making arrangements for the care of his children, and should be discharged. It is likely the case against him will be dropped. Middleton has promised to pay his delinquent room rent within ten days, in which case he also will be discharged.

### PROPOSE REPAIRING PLANT.

Board of Public Works Submits Estimate on Cost.

The estimate of the board of public works was filed with the city recorder yesterday on the municipal asphalt paving plant. The estimate was made by City Engineer Kelsey. It shows that the plant might be established at a cost as low as \$700, inasmuch as the city already owns a boiler and a mixing machine. The cost of maintenance would be approximately \$30 a day, based on these estimates: Foreman, \$4; engineer, \$3; raker, \$2.50; smoother, \$2.50; two tamperers, \$2; four laborers, \$2; one teamster, \$1.50. It is stated in the report that, in order to insure uniformity of work, the foreman would of necessity be employed at all times. The other help, however, more or less, would be contingent on time of service and the requirements of the work. The matter will come before the city council Monday evening. It is the belief that it will be turned down, for the reason that the boiler which the city owns is old and has been exposed to the weather in Orem for eight or nine years, and that, in brief, a repairing plant cannot be installed for the "capital" involved.

## CHIROPRACTIC CURES

Without the use of the knife or drugs. Hundreds of sufferers from chronic and nervous diseases are being cured daily by the Chiropractic Science.

Mrs. G. B. H. Pickard announces the opening of her new offices at 217-218 Herald Building, where she will continue her successful treatment of those seeking succor from the ills that surgery and medicine have failed to cure.

After examination and consultation, which is free, Mrs. Pickard does not accept a patient unless certain that she can effect a cure. Chiropractic is the Twentieth Century Way of relieving those who suffer from Nervous Disease, Paralysis, Epilepsy, Constipation, Bladder Trouble, Neuralgia, Headaches, Backaches, Rheumatism, Stomach and Kidney Trouble, and Afflictions of the Spinal Column.

THERE IS NO NEED TO SUFFER from chronic or nervous diseases unless the malady has gained such headway that any cure is impossible. Mrs. Pickard has cured scores of suffering men and women. The comparatively new science of Chiropractic has appealed especially to the latter who have been long-suffering and have found relief only at the hands of this expert.

Mrs. Pickard will be pleased to see her former patients, as well as those who have heretofore imagined that their cases were hopeless because drugs and surgery failed to cure.

**MRS. G. B. H. PICKARD**

217-218 Herald Building.
